# French

## COLLECTION

### Hand-hewn antique distressing

Images of shuttered windows and high, steep hip roofs against the rolling hillsides of rural France inspire the subtle, warm, romantic ambience of French Country homes. The recreation of this French Provincial Style is still seen in upper end homes today.

The intentional muting of the exuberances of Louis XV and Louis XVI, with a focus on simplicity and understatement, creates a cozy charm that is welcoming. Ziegler Custom Wood doors can perfectly match the wood accents in your home to enhance its rural, casual appeal. Our antique distressing replicates the hand-hewn rustic look of homes on the romantic, flower covered hillsides of France.
